

OVERVIEW OF COURSE

Autodesk Revit Architecture Fundamentals

Course Length: 4 days

The Autodesk® Revit® software is a powerful Building Information Modeling (BIM) program that works the way architects think. The program streamlines the design process through the use of a central 3D model, where changes made in one view update across all views and on the printable sheets. This training class is designed to teach you the Autodesk Revit functionality as you would work with it throughout the design process. You begin by learning about the user interface and basic drawing, editing, and viewing tools. Then you learn design development tools including how to model walls, doors, windows, floors, ceilings, stairs and more. Finally, you learn the processes that take the model into the construction documentation phase.

Since building projects themselves tend to be extremely complex, the Autodesk Revit software is also complex. The objective of the Autodesk Revit Architecture Fundamentals training class is to enable students to create full 3D architectural project models and set them up in working drawings. This training class focuses on basic tools that the majority of students need to work with the Autodesk Revit software.

The main topics covered in the class include:

- Understand the purpose of Building Information Management (BIM) and how it is applied in the Autodesk Revit software.
- Navigating the Autodesk Revit workspace and interface.
- Working with the basic drawing and editing tools.
- Creating Levels and Grids as datum elements for the model.
- Creating a 3D building model with walls, curtain walls, windows, and doors.
- Adding floors, ceilings, and roofs to the building model.
- Creating component-based and custom stairs.
- Adding component features, such as furniture and equipment.
- Setting up sheets for plotting with text, dimensions, details, tags, and schedules.
- Creating details

Prerequisites:

An understanding of Architectural terminology is an asset.

OVERVIEW OF COURSE

Table of Contents

Student Guide Contents

Setting up the Interface

Section 1 Introduction to BIM and Autodesk Revit

Chapter 1 Introduction to BIM and Autodesk Revit

- 1.1 Building Information Modeling
- 1.2 Overview of the Interface
- 1.3 Standard Terminology
- 1.4 Starting Projects
- 1.5 Viewing Commands

Chapter 2 Basic Drawing and Modify Tools

- 2.1 Using General Drawing Tools
- 2.2 Editing Elements
- 2.3 Working with Basic Modify Tools
- 2.4 Working with Additional Modify Tools

Chapter 3 Setting Up Levels and Grids

- 3.1 Setting up Levels
- 3.2 Linking and Importing CAD Files
- 3.3 Creating Structural Grids
- 3.4 Adding Columns

Section 2 Design Development Phase

Chapter 4 Modeling Walls

- 4.1 Modeling Walls
- 4.2 Modifying Walls

OVERVIEW OF COURSE

Chapter 5 Working with Doors and Windows

- 5.1 Inserting Doors and Windows
- 5.2 Loading Door and Window Types from the Library
- 5.3 Creating Additional Door and Window Sizes

Chapter 6 Working with Curtain Walls

- 6.1 Creating Curtain Walls
- 6.2 Adding Curtain Grids
- 6.3 Working with Curtain Wall Panels
- 6.4 Attaching Mullions to Curtain Grids

Chapter 7 Working with Views

- 7.1 Duplicating Views
- 7.2 Adding Callout Views
- 7.3 Setting the View Display
- 7.4 Elevations and Sections

Chapter 8 Adding Components

- 8.1 Adding Components
- 8.2 Modifying Components

Chapter 9 Modeling Floors

- 9.1 Modeling Floors
- 9.2 Creating Shaft Openings
- 9.3 Creating Sloped Floors

Chapter 10 Modeling Ceilings

- 10.1 Modeling Ceilings
- 10.2 Adding Ceiling Fixtures
- 10.3 Creating Ceiling Soffits

OVERVIEW OF COURSE

Chapter 11 Modeling Roofs

- 11.1 Modeling Roofs
- 11.2 Creating Roofs by Footprint
- 11.3 Reference Planes and Work Planes
- 11.4 Creating Roofs by Extrusion
- 11.5 Cleaning Up Wall and Roof Intersections

Chapter 12 Vertical Circulation

- 12.1 Creating Component Stairs
- 12.2 Modifying Component Stairs
- 12.3 Working with Railings
- 12.4 Sketching Custom Stairs
- 12.5 Creating Ramps

Section 3 Construction Documents Phase

Chapter 13 Creating Construction Documents

- 13.1 Setting Up Sheets
- 13.2 Placing and Modifying Views on Sheets
- 13.3 Printing Sheets

Chapter 14 Annotating Construction Documents

- 14.1 Working with Dimensions
- 14.2 Working with Text
- 14.3 Adding Detail Lines and Symbols
- 14.4 Creating Legends

Chapter 15 Adding Tags and Schedules

- 15.1 Adding Tags
- 15.2 Adding Rooms and Tags
- 15.3 Working with Schedules

OVERVIEW OF COURSE

Chapter 16 Creating Details

- 16.1 Setting up Detail Views
- 16.2 Adding Detail Components
- 16.3 Annotating Details
- 16.4 Keynoting and Keynote Legends

Appendix A Introduction to Worksets

- A.1 Introduction to Worksets

Appendix B Additional Tools

- B.1 Reusing Selection Sets
- B.2 Wall Sweeps and Reveals
- B.3 Creating Curtain Wall Types with Automatic Grids
- B.4 Enhancing Views
- B.5 Creating Dormers
- B.6 Revision Tracking
- B.7 Annotating Dependent Views
- B.8 Creating Building Component Schedules
- B.9 Creating a Repeating Detail

Appendix C Autodesk Revit Professional and User Certification Exam Objectives

- C.1 Autodesk Certified Professional Exam Objectives
- C.2 Autodesk Certified User Exam Objectives

OVERVIEW OF COURSE

Cancellation Policy

The following cancellation policy shall apply to all training engagements, Live Online, Onsite, Consulting Services and Dedicated/ Custom Training:

- Company reserves the right to reschedule or cancel the date, time and location of its class at any time. In the event that a Training Class is cancelled by Company, Customer is entitled to a full refund. Company shall not be responsible for any other loss incurred by Customer as a result of a cancellation or reschedule.
- For Customer cancellations when written notice is received at least ten (10) business days in advance of the class, the Customer is entitled to a full refund of its payment or reschedule enrollment less than ten (10) business days, Customer shall not be entitled to a refund, but shall receive a class credit to be used within three (3) months of the date of the original class.
- Student substitutions are acceptable with at least two (2) days prior notice to the class, provided substitution meets course prerequisites and is approved by Company's Training Coordinator. (training@dezinext.com)
- For all Training orders, cancellation notices must be submitted to training@dezinext.com. Company is not responsible for any error in the delivery of the email notice. In the event of any reschedule of Onsite training and/or Consulting Services and/or Dedicated/Custom Training by Customer, Company will invoice Customer for all non-cancellable travel expenses.
